# Cloud Application Analysis

This service forms part of risual's Cloud Transformation portfolio. It contributes to the development of your cloud, business, and digital transformation strategies by evaluating your current applications against IaaS, PaaS, and SaaS offerings to help drive true transformation and realise cost savings.

## Features

- Delivered by certified Microsoft Architects and IIBA certified Business Analysts.
- Discovers and assesses applications in preparation for transformation.
- Identifies those services that can be rehosted to cloud IaaS models.
- Identifies services that can benefit from being refactored to PaaS.
- Identifies opportunities to re-envision applications with SaaS products.
- Adds more value to a Cloud Economics Assessment.
- Identifies application dependencies to allow effective migration planning.

## Benefits

- Delivered by an Azure Expert MSP accredited Microsoft partner.
- Identifies key areas for innovation to drive true transformation.
- Focuses on where organisations can realise cost savings.
- Helps organisations to adapt an agile approach to cloud transformation.
- Prioritises effort for delivering benefits through cloud transformation.
- Supports decisions to deliver business and digital transformation projects.
- Allows price estimations for cloud consumption charges.

## About risual

Over 15 years of experience transforming the workplace through the introduction, adoption and strategic management of Microsoft cloud technology. Working across all industry sectors and delivering in partnership with our clients, we work to transform the ways in which people work through the re-imagination of technology, support services, and the provision of enhanced digital skills training.
